

The New Color of Money Safer. Smarter. More Secure.

Dear Subscriber,

The new \$50 note will be coming soon. September 28th is the day!

The Federal Reserve will soon begin issuing new \$50 notes - with new and enhanced security features and background colors. The new notes will be Safer, because they are harder to fake and easier to check; Smarter, to stay ahead of tech-savvy counterfeiters; and More Secure, to protect the integrity of U.S. currency.

If you have not yet ordered the free educational material available to train your employees and inform your customers, we encourage you to place your order today through www.moneyfactory.com/newmoney.
